FACEXPERT
ACADEMY

"#1 Masterclass
A 360° view"

Anatomical, Clinical & Cadaveric Correlation

January 15, 2027

Masterclass Malaga

23rd EDITION

TOXIN

Anatomical - Clinical - Cadaveric

FACEXPERT
ACADEMY

ENGLISH LANGUAGE

FULL IMMERSION TRAINING – ANATOMICAL GPS

Evidence-based keynote lectures
Live clinical–anatomical–cadaveric demonstrations

A UNIQUE EXPERIENCE: LEARN. OBSERVE. MASTER.

January 15, 2027
Limited availability: Only 30 participants
Lunch and two coffee breaks included
FACEXPERT Certification – Level 2

COURSES

BOTULINUM TOXIN (January 15)

- Botulinum toxin: Comprehensive update based on the latest scientific evidence. *(Level 2)*
- Live injection demonstration workshop featuring the latest updates on the MOOSE and DEER techniques. *(Level 2)*

CONFERENCE VENUE

Avenida Manuel Fraga Iribarne 3
Torremolinos - Malaga
España CP: 29620

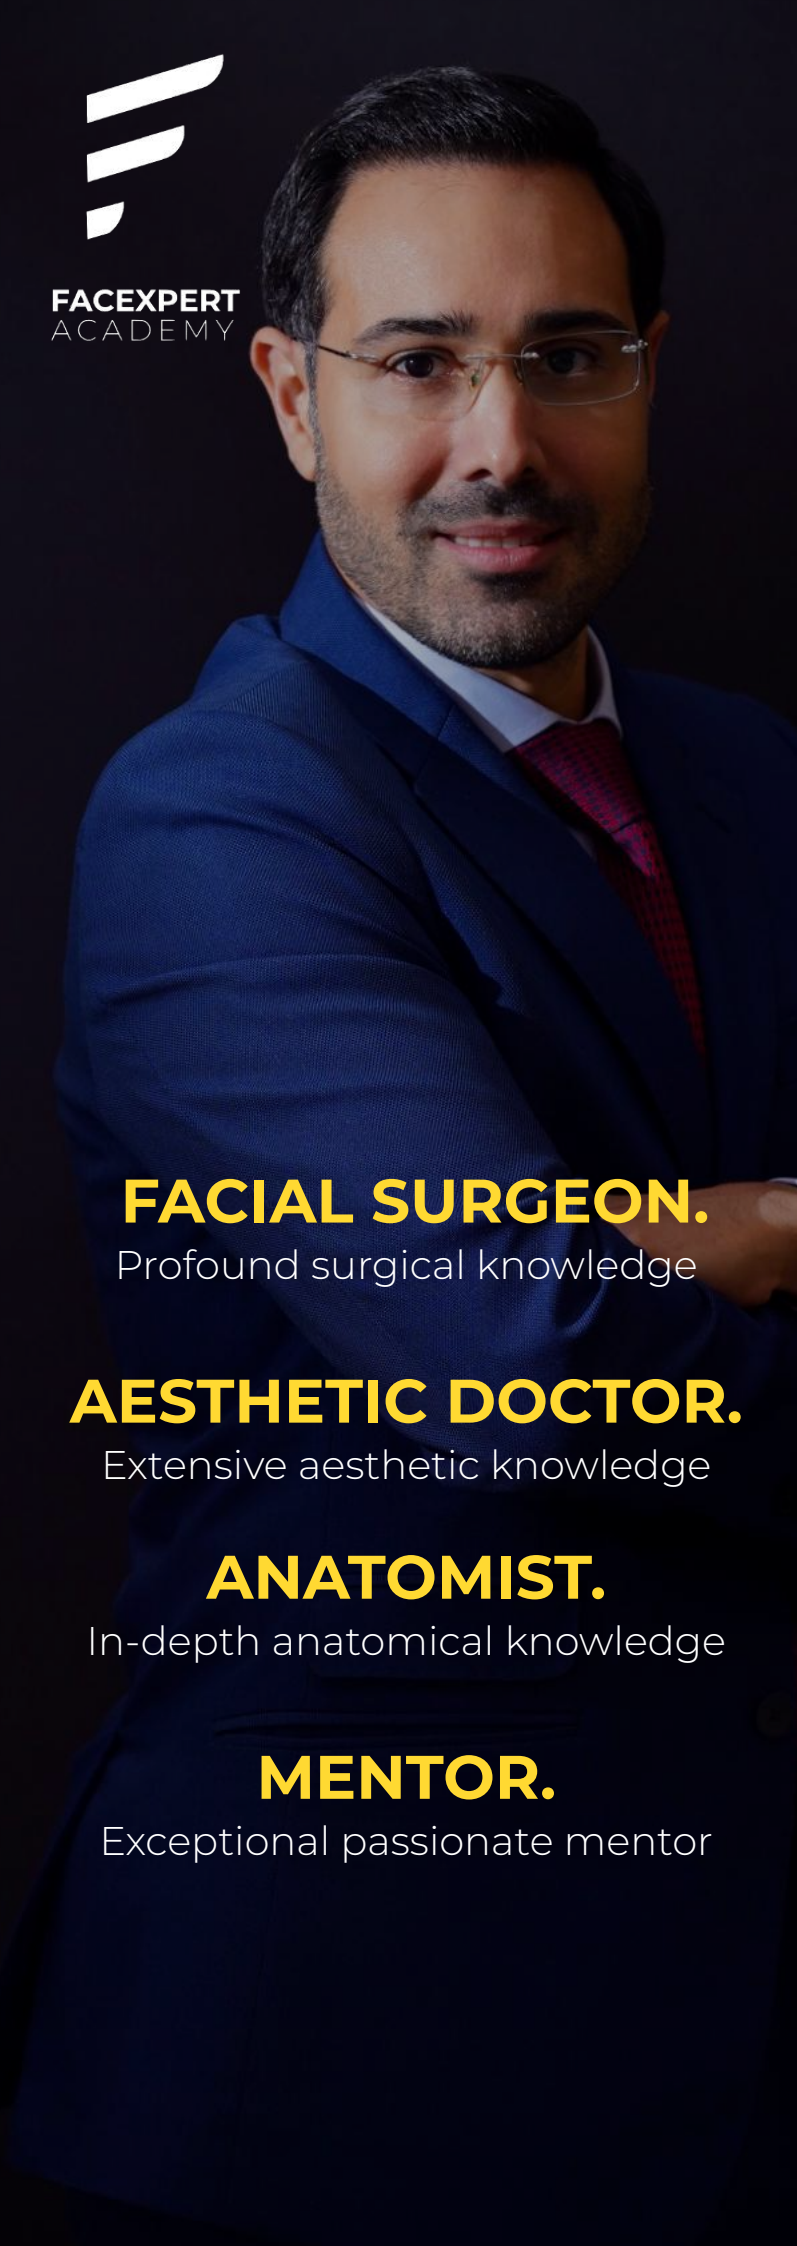

PRICE

MASTERCLASS DE TOXIN
Price: 1.800 €

NABIL FAKIH-GOMEZ

Dr. Nabil Fakih Gómez is an internationally recognized Facial Plastic & Cranio-Maxillo-Facial Surgeon, dedicated exclusively to facial surgery & aesthetic medicine. He currently serves as President of the Spanish Society of Facial Plastic Surgery (SECPF), Director of Oculoplastic Surgery at the European Academy of Facial Plastic Surgery (EAFPS), & Associate Member of the American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS).

Dr. Fakih is the founder of four specialized facial clinics & one hospital, including FACEXPERT Clinic & Academy (Spain), ExpertsHub (Dubai), Fakih Clinic Beirut (Lebanon), Fakih Clinic South (Lebanon), and Fakih Hospital. Through these institutions, he has developed an international network dedicated to excellence in facial surgery, education, & innovation.

He is the author and co-author of more than 65 peer-reviewed scientific publications & five book chapters in the fields of facial plastic surgery, cranio-maxillo-facial surgery, regenerative medicine, and aesthetic medicine. His research focuses on surgical innovation, facial rejuvenation, regenerative therapies, and patient safety. He has participated in more than 500 scientific courses, congresses, & educational events worldwide, where he has shared his expertise in facial plastic surgery & aesthetic medicine with physicians from across the globe.

His commitment to advancing medical education led him to establish FACEXPERT Academy, an international educational platform dedicated to providing evidence-based, ethical, and comprehensive training for physicians at every stage of their professional development. Built on the principles of scientific rigor, innovation, and patient safety, the academy combines anatomy, surgery, regenerative medicine, and clinical practice to promote excellence in facial aesthetic medicine & surgery.

Dr. Nabil Fakih

FACIAL SURGEON.
Profound surgical knowledge

AESTHETIC DOCTOR.
Extensive aesthetic knowledge

ANATOMIST.
In-depth anatomical knowledge

MENTOR.
Exceptional passionate mentor

PROGRAM | 08:00 - 20:00

FACEXPERT ACADEMY

FRIDAY, JANUARY 15 - *TOXIN*

- **08:00 – 08:30** Welcome
- **08:30 – 11:00** Masterclass lecture on botulinum toxin
- **11:00 – 11:15** Break
- **11:15 – 13:00** Lecture on advanced injection techniques
- **13:00 – 14:00** Lunch break
- **14:00 – 16:30** Live injection demonstration in complex facial areas
- **16:30 – 16:45** Break
- **17:00 – 18:30** Live injection demonstration with facial analysis
- **18:30 – 20:00** Live injection demonstration in the lower third of the face

Presentation

A TRUE LEARNING PATH:
LEARN. OBSERVE. PRACTICE. MASTER.

Everything about TOXIN

SIX YEARS OF CLINICAL INVESTIGATION
EVIDENCE-BASED MASTERCLASS
ANATOMICAL-CLINICAL CORRELATION
80 TIPS & TRICKS IN TOXIN INJECTION

PROGRAM | 08:00 - 20:00 **FRIDAY, JANUARY 15**

FACEXPERT ACADEMY

2 BOTULINUM TOXIN
EVERYTHING IS EVERYTHING.

Over the past six years, Dr. Nabil Fakih has conducted continuous research on botulinum toxin in facial aesthetic medicine, focusing on functional facial anatomy, muscular patterns, injection mapping, dosing strategies, tissue diffusion, and patient-specific treatment response.

To accurately interpret clinical outcomes, it is essential to distinguish three complementary concepts: efficacy, which evaluates treatment performance under ideal conditions; effectiveness, which reflects outcomes achieved in routine clinical practice; and efficiency, which assesses the relationship between clinical results, dosage, treatment time, and resource utilization.

This educational program presents the evolution of botulinum toxin from its earliest clinical applications to current evidence-based practice, integrating dynamic facial anatomy, scientific evidence, and six years of clinical research to optimize treatment precision, safety, natural outcomes, and personalized patient care.

A FROM HISTORY TO EFFICACY • EFFECTIVENESS • EFFICIENCY

- History and evolution of botulinum toxin
- Types and major formulations
- Mechanism of action
- Axonal sprouting
- Mechanisms of resistance
- Bulk > Free > Bound > Trans > Lytic formula
- Differences in mechanisms of action
- 20 factors influencing clinical efficacy
- Assessment of clinical effectiveness – Review of studies
- Comparison of botulinum toxin formulations
- Assessment of clinical efficiency
- Critical appraisal of the scientific evidence

Research on:
- Biological potency
- Injection precision
- Dilution and reconstitution
- Tissue diffusion and dispersion

Clinical Correlation:
- Excipients
- Drying and preservation methods
- Storage temperature
- Product formulation
- Botulinum toxin stability
- Complexing proteins
- Unit equivalence and biological potency
- Active versus inactive toxin
- Receptors involved in the mechanism of action
- Administered dose
- Dilution and reconstitution
- Tissue diffusion and spread
- Biological potency and muscle activity
- Injection technique and anatomical plane
- Onset of action and duration of effect
- Product purity
- Antibodies against complexing proteins
- Core-neutralizing antibodies
- Glycosylation pattern
- Drug interactions
- Impact of physical activity
- Stress and psychiatric disorders
- COVID-19 infection
- Cold exposure

PROGRAM | 08:00 - 20:00 **FRIDAY, JANUARY 15**

FACEXPERT ACADEMY

2 BOTULINUM TOXIN
EVERYTHING IS EVERYTHING.

B SIX YEARS OF RESEARCH ON BOTULINUM TOXIN

Foundations of Anatomical Research
- Evolution of applied anatomy and muscle research

Anatomical Research by Muscle Region
- Relationship between muscle origin, insertion, direction, and function
- Interaction between agonist, antagonist, and synergistic muscles
- Assessment of muscle strength, volume, and contraction patterns
- Importance of injection depth and anatomical plane
- Anatomical variations of the frontalis muscle and residual forehead lines

Split-Face and Intraindividual Clinical Studies
- Split-face clinical studies using an intraindividual control model
- Comparison of anatomical injection points, doses, and concentrations
- Analysis of facial symmetry at rest and during movement

MOOSE and DEER Techniques
Anatomical basis of the MOOSE and DEER techniques
Clinical outcomes derived from anatomical research

The Galeal Frontal Retainer Concept
- The galeal frontal retainer concept
- Anatomy of the galea aponeurotica and its relationship with the frontalis muscle
- Influence of the galeal retainer on forehead lines
- Prevention of residual forehead lines

Anatomical Integration and Individualized Treatment Planning
- Personalized injection mapping
- From standardized injection points to personalized anatomical injection
- Importance of understanding each muscle individually and as part of an integrated functional unit
- Correlation between anatomical precision and clinical outcomes
- Prevention of complications through advanced muscular anatomy
- Optimization of efficacy, effectiveness, and efficiency

C LIVE DEMONSTRATION

- Live demonstration of the MOOSE and DEER techniques
- Live demonstration of DAO, Chin, and Platysma techniques
- Live demonstration of Bunny Lines, Wolf, and Gummy Smile techniques
- Live demonstration of additional facial injection techniques

PROGRAM | 08:00 - 20:00 FRIDAY, JANUARY 15

FACEXPERT ACADEMY

2 BOTULINUM TOXIN
EVERYTHING IS EVERYTHING.

D 80 TIPS & TRICKS ON BOTULINUM TOXIN

Preparation, Dosing and Documentation
- Tip for proper reconstitution
- Tip for selecting the appropriate dose
- Tip for improving treatment efficiency
- Tip for selecting the appropriate injection instruments
- Tip for proper product mixing
- Tip for botulinum toxin preparation
- Tip for using clinical assessment scales
- Tip for standardizing clinical photography
- Tip for managing unrealistic patient expectations
- Tip on product purity and composition
- Tip for controlling tissue diffusion and spread
- Tip for anatomical treatment planning
- Tip for assessing wrinkle severity

Forehead and Eyebrow Position
- Tip for assessing ptosis and pseudoptosis
- Tip for treating the corrugator supercilii muscle
- Tip for eyebrow elevation using different techniques
- Tip for assessing eyebrow position and shape
- Tip for preventing residual forehead lines
- Tip for preventing and managing true Mephisto sign
- Tip for preventing and managing false Mephisto sign
- Tip for assessing and treating the C-line
- Tip for treating the lateral eyebrow tail
- Tip for upper-face anatomical marking
- Tip for identifying patients at risk of ptosis
- Tip for treating eyelid ptosis (8 strategies)
- Tip for preventing ptosis-related complications
- Tip for assessing and treating eyebrow descent

Periorbital Region
- Tip on the lacrimal gland
- Tip for treating the orbicularis oculi muscle
- Tip for assessing tear valley hollowing
- Tip for treating patients with poor muscle tone
- Tip for managing lower eyelid fat pads
- Tip for addressing SOOF descent
- Tip for treating orbicularis oculi muscle hypertrophy
- Tip for the zygomatic musculature

Nose and Perioral Region
- Tip for treating bunny lines
- Tip for treating Wolf lines
- Tip for correcting upper lip descent
- Tip for optimizing nasal tip position
- Tip for treating gummy smile
- Tip for treating the orbicularis oris muscle
- Tip for treating the depressor anguli oris (DAO) muscle
- Tip for correcting depressor labii inferioris (DLI) paralysis
- Tip for treating the mentalis muscle

Lower Face, Jawline and Neck
- Tip for treating the platysma muscle
- Tip for enhancing jawline definition
- Tip for treating the masseter muscle
- Tip for treating the parotid gland
- Tip for treating the submandibular gland
- Tip for preventing and managing complications

Body and Therapeutic Indications
- Tip for hand rejuvenation
- Tip for treating axillary hyperhidrosis
- Tip for migraine treatment
- Tip for managing post-treatment headache
- Tip on the role of zinc
- Tips for acne treatment
- Tips for rosacea treatment

Safety and Contraindications
- Tip for managing patients with myasthenia gravis
- Tip on botulinum toxin use during pregnancy
- Tip for post-treatment care
- Tip on useful clinical apps
- Tip for managing hypersensitivity reactions
- Tip for managing post-toxin vascular ischemia
- Tip on toxin-induced vasoconstriction
- Tip on toxin-induced vasodilation
- Personal tips and clinical pearls
